授業の目的と概要 [Purpose and Summary of Course]
This course uses teaching materials drawn from real media sources of English to explore a variety of topics. Reading, discussion, written, and presentation practice allows students to improve verbal, non-verbal, interpersonal, and written communication competencies within social and professional settings.

学習の到達目標 [Goal of Study]
Students will develop strong communications skills in English necessary for academic research, and in professional and social environments. Special attention is given to enhancing discussion and written expression in English.

授業内容・方法と進度予定 [Contents]
1. Introductions
2-13. Topic to be announced in class
14. Final presentation tasks

成績評価方法 [Evaluation Method]
Assessment is based on demonstrated improvement during the coursework, and participation in class.

教科書および参考書 [Textbook and References] Provided

その他 [In Addition]
