We wrote this example of abstract by Word [1]. In this example, we use 14 points sans serif font for title, 12 points of sans serif font for speaker's name, collaborators' name and their attachments and 12 points of serif font for main contents [2]. However, you can use any font or character points as you like. You can use any software to make this abstract but please follow some cautions (see below).

- ※ 1 Please write your abstract in A4 size, one page. (2MB or less per one file)
- ※ 2 Please take 30 mm for top and bottom margins and 20 mm for left and right margins
(We'll put presentation number at the top and page number at the bottom.)
- ※ 3 When you submit your abstract, please convert your file to PDF.

You can use figures or tables if you want. You can use colored figures. Arbitrary size, position for figures are O.K. unless they fit on one page. This abstract will be published on a web site. In this abstract, please put emphasis on introduction section for researchers outside your field. To make it easy for anyone to understand your research, please write background, purposes or effects to surrounded fields of your research in detail and select your research results.
