## Purpose of this poster

To provide specific examples of poster and
write a few points to consider in their preparation.

## Notes on poster preparation

- You can explain your poster for 10 minutes.
- The aspect ratio should be 16:9, and the font size should be large enough to be readable on a PC screen.
- The poster can be made in either English or Japanese.
- Your title, affiliation, and name should be placed at the top of poster, and your presentation number should be placed at the upper right corner in red letters with a red circle around it. (Size not specified)
- We recommend that you include your photo and e-mail address on the poster.
- Your slides should be simple so that participants from other fields of research can understand the highlights of your research
- You may decorate the slides freely

## Poster renumbering and placement

To modify the number of your poster, please change the number in I.87. As adjust the placement, please change the vspace in I .84 and I .90 to adjust.

Notes when creating a poster with tex
Basically, you can use BeamerPoster.
Example of a formula :

$$
\begin{equation*}
\partial_{t} u-\Delta u=0 \tag{1}
\end{equation*}
$$

If you set the "documentclass" to [dvipdfmx]er\}and"usepackage"to[orientation=landscape,size=custom,width$=160$,height$=90$,scale$=1.6]\{$beamerposter$\}$,theposterwilllooklikethis."Orientation"isusedtospecifytheorientationoftheposter."Landscape"willgiveyouahorizontalposter.Thesizeisusuallysettoa0whenyoucreateaposter,butpleasechangeitbyusing"custom"likewidth$=160$,height$=90$,andsettheratioto16:9."Scale"specifiesthesizeofthetext.Pleaseusethistomakeyourpostereasytoread.However,thetitlewillalsobeenlarged.Ifyouwanttochangethesizeofonlythemainbodytext,pleaseadjustthetextsizeinadditiontothescale.Werecommendthatyoucreatetheposterwithafontsizethatislargerthan2.3timesthestandardfontsizeifyouhaveapagesettingof$160\mathrm{~cm}\times90\mathrm{~cm}$.(Thisposterisabout2.3timeslargerthanthestandardfontsizesetfora$160\mathrm{~cm}\times90\mathrm{~cm}$poster,i.e.1.6timesScale$\times1.44$timesLargefontsize.)undefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefinedundefined

## To insert an image

Figures should be high quality (at least 300 dpi ).
To insert a table
