

TeijinKumura Scholar Data

Total number of Teijin kumura Scholars **1,706**
Current Teijin kumura Scholars **47**
(As of July 2022)

About Teijin Group

Toward the fulfillment of its Long-Term Corporate Vision of "To be a Company that Supports the Society of the Future," the Teijin Group has implemented various initiatives to create growth platforms, including proactively allocating resources to the three solutions of Environmental Value Solutions; the Safety, Security, and Disaster Mitigation Solutions; and the Demographic Change and Increased Health Consciousness Solutions and strengthening the management base to drive innovation, in line with its Medium-Term Management Plan 2020-2022: ALWAYS EVOLVING. In the Materials Business Field, we are striving to shift to a business model focused on providing customers with solutions, including high-performance and lightweight materials for mobility applications, and we are proactively investing in endeavors to achieve carbon neutrality. In the Healthcare Business Field, we have acquired the sales rights for diabetes treatments, and therefore built the foundation for expanding our services to contribute toward preventing lifestyle-related diseases and their development, and we have also embarked upon the regenerative medicine business, which integrates the Teijin Group's technological bases in healthcare, materials and engineering.

Meanwhile, it is still uncertain when the global COVID-19 pandemic, which began to spread worldwide in 2020, will be over. The world is experiencing a global shortage of semiconductors, a sharp rise in materials and energy prices, disruptions in logistics networks, and heightened and realized international political and geopolitical risks. These factors have had a certain impact on our businesses, and mainly on the Materials Business Field. Fiscal 2022, the final fiscal year of our Medium-Term Management Plan, is an important year in which we should not only make a full commitment to achieve the goal of creating growth platforms, but also design the next Medium-Term Management Plan and draw a picture of the future with a sense of speed. We will conduct a fact-based review of the achievements and results we have produced so far from the perspective of what we have successfully done and what we have not done. We will also take a fresh, careful look at our purpose in a society filled with drastic changes and uncertainties, and seriously address real issues and the pain that society and customers are now facing. By doing these things, we aim to transform our business models to those that are focused on delivering solutions. We believe that accomplishing this aim will require the Teijin Group to create an organizational structure and corporate culture that facilitates innovation, and to unite to form a strong team. To bring happiness to all stakeholders, we will make Group-wide efforts, with our purpose as the starting point, to be a company that can continue to provide value with solutions to material issues (materiality).

Teijin Scholarship Foundation

Application Guide

1. Qualification Requirements

- (1) The applicant must be a student in a medical / pharmaceutical / bioscience, science, engineering or information science related course at a domestic university.
- (2) Fulfill the following conditions, receive the recommendation of a faculty head or senior faculty professor and the recommendation of a school.
- (3) Students who have decided to study in a Master's course from September/October 2022 or April 2023. (Foreign students may also apply.)

* When you will transfer to another university, please apply from the domestic university that you currently belong to.

2. Number of Scholarship Recipients

Master's course: 10
* Among these, about one person is a foreign student.

3. Selection Criteria

We select a scholarship student with grade and research level.

4. Selection Method

- (1) Preliminary selection
Screening of application materials
- (2) Secondary selection
Applicants who pass the preliminary selection will be screened in specialized interview.
 - Medical / pharmaceutical / Bioscience
(Medical, Pharmaceutical, biology, environmental science, etc)
 - Science (chemistry, physics, material, science, etc)
 - Engineering (electrical/ electronic engineering, machine engineering, architecture, etc)
 - Information science (information systems, electronic systems, etc)
- (3) Final selection
The foundation's selection committee will interview applicants who pass the secondary selection to determine the scholarship recipients.

5. Selection Schedule

Selection method	Schedule	Location
Secondary selection	Late April-Mid-May	Teijin Limited (Tokyo HQ)
Final selection	June 13th	Teijin Limited (Tokyo HQ)

* Details of selection dates and locations, etc., will be announced separately to applicants.
* The interview may be changed to web interview due to the influence of coronavirus.
* Travel expenses for interviews will be fully reimbursed only for domestic transportation in Japan.
* Students who are planning to study in a Doctor's course will be received in August-September 2023.

6. Documents Submitted (Application form can be download from Our Website)

- (1) Teijin Scholarship Foundation Teijin Kumura Scholar Applicant's Statement (Use the designated form; attach a photograph): Submit a form signed by the applicant in person

- (2) Teijin Scholarship Foundation Teijin Kumura Scholar Recommendation Statement (Use the designated form): Submit a form created by the supervising professor
- (3) Evidence of academic achievements (Latest copy)
- (4) 1 copy of a concise summary of 2-3 A4 pages of your current research brief (It must be character size 11 or more, and monochrome copies)
- (5) Written consent for the handling of personal information (Use the designated form): Submit a form signed by the applicant in person
- (6) Certificate of Eligibility (only foreign students)

7. Deadline for Application

* The 2022 fall-admissions person is also the same.
- (4) Loan method
The scholarship loan for 2-months is transferred into the scholarship recipient's personal account at a financial institution at the start of each even-numbered month.
- (5) Loan repayments

a) Scholarship recipients are excused from repayment if they engage in scientific research activities for a designated period at a university research organization, where designated by the foundation (corresponding to the organizations designated by Japan Student Services Organization).

- b) In cases other than those described in a) above, the loan is to be repaid in half-yearly installments in a period less than 5 times the number of months of the scholarship loan period, it starting from 6 months after the completion of the loan period. However, the loan is interest free.
- (6) Other
 - a) We accept that you receive other scholarship.
 - b) Not obligated to join Teijin Limited.

Overview of the Teijin Scholarship Foundation

Teijin Ltd. Founder.
Seita Kumura
(1880-1951)

The Teijin Kumura Scholarship system was started to commemorate the 35th anniversary of Teijin Limited's founding in 1953 and to honor the achievements of Seita Kumura, who established rayon manufacturing technology in its own right and is known as the "father of the Japanese rayon industry". The purpose of this Scholarship system is to cultivate young engineers and scientists who would succeed to and develop Mr. Kumura's spirit of creative R&D and contribute to the development of our nation and society and the creation of culture. In July 1954, the company established the foundation "the Teijin Scholarship Foundation" for the scholarship system in order for the further development of the system. With its transition to public interest incorporated foundation, it has been accredited by Prime Minister in October 2011. The essential spirit that has permeated the system since its establishment has not changed. The system is not run for the sake of one company and takes as its central aim the cultivation of the human resources that will be responsible for the development of national society. Because of this aim, recipients of scholarship loans are excused from repayment if they are involved in research at a university or public laboratory after graduation. In addition, scholarship loans are recognized if an applicant has done well at school, irrespective of economic conditions, etc., in order to cultivate the researchers who will be responsible for the science and technology of the future. Furthermore, since its founding, this system has never set mandatory restraints and has firmly maintained the essential qualities of the foundation. Until this point, about 1,600 people have been active in university research organizations and private companies.

1. History

June 1953
Teijin Limited established an educational scholarship system as a project to commemorate the 35th anniversary of the establishment of the company.
July 1954
The Education Minister permitted Teijin Limited to establish the Teijin Scholarship Foundation. The foundation continues to the present day.
October 2011
With its transition to public interest incorporated foundation, it has been accredited by Prime Minister.

2. Aim

The foundation aims to cultivate human resources who will become aware of their mission as scientists and engineers and be responsible for the development of our nation and society and the creation of culture.

3. The Origins of the Names "Teijin Kumura Scholarship" and "Teijin Kumura Scholar"

The scholarship awarded by the foundation was named the "Kumura Scholarship" and the recipients of the scholarship "Kumura Scholars" in order to honor the achievements of Seita Kumura, who was the first person in Japan to establish rayon manufacturing technology and subsequently built the foundations for the development of the rayon industry, and to communicate those achievements eternally to later generations. To mark the 50th anniversary of this scholarship system, they have been renamed the "Teijin Kumura Scholarship" and "Teijin Kumura Scholars" respectively.

4. Project Details

Teijin Kumura Scholarship loans are awarded to graduate school students in technology-related disciplines.

(As of January 2023)

5. The total number of scholarship recipients

1,706 Teijin Kumura Scholars from the first year of the program (1953) to the 70th (2022).

6. Executive <Japanese syllabary order>

President
Jun Suzuki (Teijin Limited)

Directors
Hiro Ito (Professor, University of Electro-Communications)
*Directors and Selection Committee
Shigeru Ohta (Honorary Professor, Hiroshima University)
Haruhiko Ohta (Honorary Professor, Kyushu University)
*Directors and Selection Committee

Auditors
Masanori Shimai (Teijin Limited)
Atsushi Takahara (Honorary Professor, Kyushu University)

Councilors
Nobuharu Iwasawa (Honorary Professor, Tokyo Institute of Technology)
Hiroshi Kanai (Professor, Tohoku University)
Toshiya Koyama (Teijin Limited)
Eiji Yashima (Professor, Nagoya University)

Selection Committee
Takuzo Aida (Deputy Director, RIKEN Center for Emergent Matter Science)
satoshi Obika (Professor, Osaka University)
Ken-ichiro Kataoka (Teijin Limited)
Toshitake Karasawa (Teijin Limited)

"Young people go overseas!"

~ Message from a Nobel Prize Laureate in Chemistry (2010) Dr. Ei-ichi Negishi ~

When I joined Teijin in 1958, Shinzo Oya the president at that time told, "Young people must go overseas. You will be able to speak three languages in 30 years, if you learn one language in 10 years. Then you will become world-class talent." The starting point that I was able to walk on such a way is in the word of President Oya. In the field of chemistry, the competition is worldwide, and our playground has extended across the world. Now, you have to look for the professor from the world and aim for the top in the worldwide competition. For the young people like you, I suggest you to go overseas aggressively. When you find your own "Dream", please challenge it thoroughly until the truth is investigated. I look forward to your great success in the future.

*This message was contributed in November 2013.

Purdue University
Distinguished Professor
Mr. Ei-ichi Negishi
(Teijin Group Distinguished Fellow)
5th year Teijin Kumura scholarship (1957)
