# "Hadron structure and transition from lattice QCD"

by Shigemi Ohta (KEK)

Time and Date : 15:00 - 17:00, Tue May 21st 2019

Venue : Room 745, Science Complex B (H-03)

Abstract:

I will summarize the current status of numerical lattice quantum chromodynamics (QCD) on hadron structure and transition with the domain-wall fermion (DWF) quarks that preserves chiral and flavor symmetries.
