To Students

## **Restrictions on Students Entering Kita-Aobayama Campus due to 2026 (first round) Tohoku University Undergraduate Entrance Examination**

The Faculty of Science has implemented a crucial security measure to prevent unauthorized entry onto the Kita-Aobayama campus during the examination period.

Your cooperation in refraining from any activities that may interfere with the examination, such as speaking loudly, is crucial to maintaining a quiet test-taking environment on campus.

### 1. Restricted Entry Period

Wednesday, February 25: Until 17:00

Thursday, February 26: Until 13:30

### 2. Restrictions on Entry (Examination period)

1) Students who have not yet been assigned to a laboratory: Entry to the campus area will be prohibited during the examination period.

2) Students assigned to a laboratory: You are prohibited from entering the buildings where the examination will be held (see the attached map) except for unavoidable reasons, such as animal rearing.

Entry will also be prohibited between 8:00 a.m. and 11:00 a.m., as the period overlaps with the reception hours for examinees.

Please note that students who enter the examination venues for unavoidable reasons must undergo an ID inspection and declare their purpose of entry at the entrance.

They will also be prohibited from entering the area where the examination rooms are located, entering and exiting the building, and using the restroom.

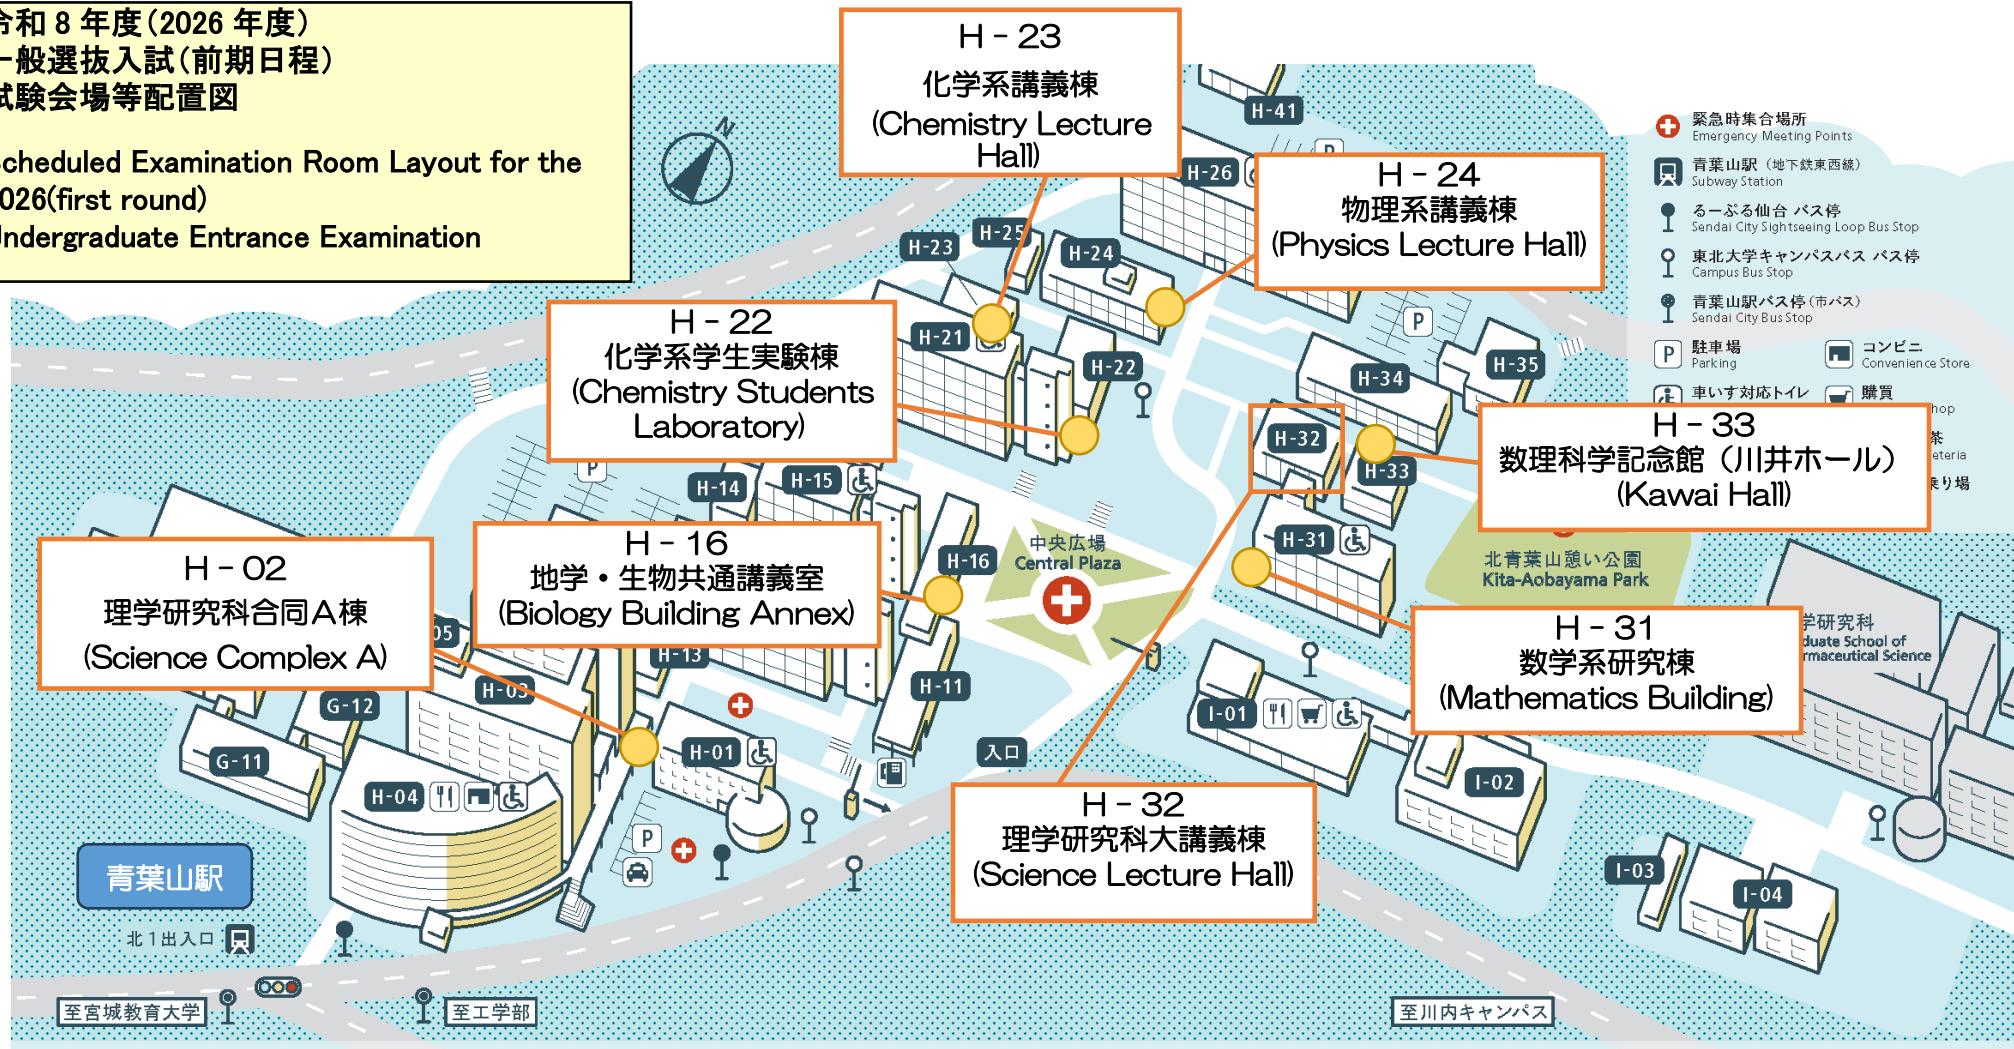

### 3. Research activities during the examination period

To avoid the risk of interruption of the examinations due to fire caused by experiments, all experimental equipment must be stopped (no experiments allowed), except those that must be kept running during the above period.
