

GPPU seminars

Time and Date: 10:00-12:30, Feb 28th, 2024

Place: Room 743, Science Complex B H03 (hybrid)

Registration: "<https://us02web.zoom.us/meeting/register/tZEtcumrrzssGNBavaFgD6gi9fV9uuRypSfd>"

1) “Investigation of dust submillimeter excess emission considering mesoscopic properties of cosmic very small dust grains”

1) Kenji Amazaki (D1, Astronomy)

2) “Star formation activity at the peak epoch of galaxy formation probed by deep narrow-band imaging”

2) Kazuki Daikuhara (D2, Astronomy)

3) “Environmental Impact on Galaxy Morphology and Star Formation”

3) Ronald Laishram (D2, Astronomy)

Abstract can be found at <http://lambda.phys.tohoku.ac.jp/gppu/seminar/>
