Graduate Program on Physics for the Universe (GPPU) at Tohoku University is an educational program for graduate students who will lead international projects and play an active part in their global employability. As a part of the educational program, we are organizing a school, “GPPU school”. The school covers topics including elementary particle, astro, and nuclear physics. The school consists of plenary and student sessions. Time is reserved for discussions.

key note speakers

Eiichiro Komatsu (Max Planck Institute)

Sho Fujibayashi (Tohoku U.)

Antonio Pineda (IFAE & Barcelona Autonomia U.)

Taichi Sakai (Tohoku U.)

Pascal Naidon (RIKEN)

Nu Xu (LBNL)

Kazuhiro Watanabe (Tohoku U.)
